Semarang, Jawa Tengah

While most philosophy graduates stay in abstract debates, I learned to apply that same deconstruction to messy business workflows. A Philosophy graduate from Universitas Gadjah Mada (GPA 3.70/4.00) with a Google Data Analytics certification, I bridge on-the-ground sales execution with technical analysis. I kept CRM records 100% accurate while handling hundreds of prospects, sustained 100% on-time milestones for 8 months managing a B2B pipeline, and led a team to a Top 5 finish at International Investment Forum 2025 by pitching a data-backed logistics model. As a fresh graduate, I focus on turning raw market data into clear actions that remove execution bottlenecks and support sustainable operational growth.

CORE COMPETENCIES & TECHNICAL SKILLS

- Strategic Business & Operations: B2B Sales & Partnership Development, Sales Pipeline Management, Operational Logistics, Inventory Forecasting, Project Coordination, Executive Pitching & Presentation
- Data & Market Intelligence: Quantitative Market Research, Data-Driven Needs Analysis, User Experience (UX) Research, Competitor Intelligence, Financial Risk Concepts
- Technical & Analytical Tools: Python (Polars, NumPy), Rust, Go, Advanced Microsoft Excel, Data Mining, Machine Learning Fundamentals, CRM Pipeline Management, Web Frameworks (Next.js, SvelteKit)

PROFESSIONAL & ENTREPRENEURIAL EXPERIENCE

CIPTA WEBSITE - Sleman, D.I.Yogyakarta

Feb 2025 – Sep 2025

Business Development Analyst

- Managed B2B vendor discovery when project specifications were ambiguous, translated requirements into structured commercial proposals, sustained 100% on-time milestone delivery across 8 months.
- Resolved communication delays between internal team and third-party partners by building a unified feedback pipeline, removed execution bottlenecks.
- Drafted and finalized B2B partnership contracts, aligned client expectations with company targets, secured long-term collaborative agreements.

PT. OTO FINANCE GROUP - Sleman, D.I.Yogyakarta

Dec 2024 – Feb 2026

Telemarketing & Customer Service (Part-Time)

- Executed high-volume outbound sales under daily targets, applied persuasive communication within 2–3 minutes per call, turned rejections into qualified leads.
- Maintained 100% CRM accuracy under pressure, providing reliable data for sales reviews and compliance.
- Demonstrated resilience and flexibility by adapting communication style in real time to diverse customer profiles.

ANGKUT TERNAK - Sleman, D.I.Yogyakarta

Dec 2023 – Juli 2025

Founder & Operations

- Built the foundational business model for an early-stage livestock transportation platform when market demand was unproven, validated through continuous on-the-ground user acquisition.
- Presented the quantified value proposition to 50+ regional investors in high-pressure pitch sessions, secured early-stage traction.
- Converted logistical bottlenecks and direct farmer feedback into iterative platform improvements, ensured the product solved real distribution problems.

INNOVATIVE ACADEMY UGM - Sleman, D.I.Yogyakarta

Aug 2023 – Aug 2025

Project Coordinator

- Evaluated project streams using structured data, identified inefficiencies, accelerated development timeline.
- Coordinated fast-paced project workflows in a university incubator, documented operational processes to keep the core team aligned and on schedule.

PT. BANTU TERNAK INDONESIA - Sleman, D.I.Yogyakarta

Aug 2023 – Jan 2024

UX Researcher Intern

- Synthesized scattered operational feedback into structured visual reports, gave the core team clear data-driven insights for market analysis.
- Investigated customer pain points in the agritech sector through in-depth field interviews, translated latent feedback into actionable strategies for product positioning.

SAMAKARSA COFFEE & TEA - Sleman, D.I.Yogyakarta

Jun 2022 – Feb 2023

Store Supervisor

- Negotiated order quantities with B2B suppliers and monitored daily inventory, maintained stable operations and prevented critical stockouts for 7 months.
- Forecasted monthly inventory demand using historical sales patterns when purchasing relied on intuition, replaced guesswork with data-driven procurement, optimized operational costs.

Education Level

UNIVERSITAS GADJAH MADA (UGM) - Sleman, DI Yogyakarta

Aug 2021 - Jul 2025

Bachelor of Philosophy | GPA: 3.70/4.00

Organizational Experience

MBKM Kampus Merdeka - Sleman, DI Yogyakarta

Aug 2023 - Dec 2023

Independent entrepreneur program participants

- Collaborated within a cross-functional team to conduct comprehensive market research and develop a viable business proposal from the ground up (which later evolved into the "Angkut Ternak" project).
- Gained intensive hands-on experience in executing operational feasibility studies, analyzing market data, and translating raw concepts into structured project documentation.
- Regularly pitched project initiatives to industry experts and mentors, honing my ability to communicate ideas clearly, accept constructive feedback, and adapt project plans quickly under pressure.

BANWASLU (Badan Pengawas Pemilu) UGM - Sleman, DI Yogyakarta

Jan 2022 - Des 2022

Chairman of Security Division

- Led the security division to mitigate risks and resolve conflicts during the high-pressure student election period, ensuring a safe and democratic process.
- Enforced election regulations and maintained strict neutrality standards among participants, demonstrating a commitment to integrity and rule of law.
- Managed a tactical team to monitor election points across the campus, ensuring operational discipline.

LINGKAR STUDI FILSAFAT (LSF) COGITO UGM - Sleman, DI Yogyakarta

Sep 2021 - Sep 2022

Staff Human Resources Development

- Managed the recruitment and onboarding process for new members, ensuring alignment with the organization's values and academic standards.
- Coordinated internal discussions and capacity-building programs to enhance members' critical thinking and soft skills.
- Fostered a cohesive and inclusive community environment through internal engagement initiatives and bonding activities.

Certificate & Credentials

- **Introduction to Financial Engineering and Risk Management (2026)** - Columbia University
- **Data Mining in Python (2025)** - University of Michigan
- **Machine Learning Specialization (2025)** - Stanford University & [DeepLearning.AI](#).
- **Google Data Analytics Professional Certificate (2024)** - Google.

KEY MILESTONES & AWARDS

- Selected for 30 Innovators Under 30 (2025) at the Global Innovation & Future Technology Summit for practical solutions in livestock logistics.
- Top 5 Finalist & Pitching Leader (2024) at 'Meet The Investors', led 3-minute pitch to livestream audience of 1,500 across five countries.
- Received direct recognition from Indonesia's Minister of Cooperatives and SMEs, Mr. Teten Masduki (2024), for agricultural distribution innovation.
- Selected to represent Universitas Gadjah Mada at KMI Expo Kendari (2024), validated business models directly with MSME owners and farmers.
- Invited as featured alumni speaker for UGM 'Wirausaha Merdeka' (2024), shared execution strategies and market validation lesson

SELECTED TECHNICAL PROJECTS & WRITING

- Developed and shipped scalable web applications (Agenone, BigFriend, Blue Bank, Chat n Rechat, Clevis) using Next.js and SvelteKit, solved routing, data pipeline, and user-interface challenges from logic to deployment.
- Authored technical deep-dives (SvelteKit vs Next.js, Secure Data Persistence in Zustand, Dynamic Open Graph Generation) to clarify complex software architecture decisions and production trade-offs.
